CONTENTS

Vol. 6, No. 1 **March 1977**

On the Solution of Multiattribute Problems Involving Counting in Intersecting Sets 1
Herbert Hellerman and Roger Cavallo

A Natural Language Understander Based on a Freely Associated Learned Memory Net 9
Sara R. Jordan

On Syntactic Edge Detection in Noisy Pictures 27
Kai Hwang

An Algorithm for Optimal Single Linear Feature Extraction from Several Gaussian Pattern Classes 41
S. A. Starks, R. J. P. de Figueiredo, and D. L. Van Rooy

Simplification of Fuzzy Switching Functions 55
Thomas P. Neff and Abraham Kandel

Applications of Fuzzy Algebra to Hazard Detection in Combinational Switching Circuits 71
J. Steven Hughes and Abraham Kandel

On Characteristic Sets and Degrees of Finite Automata 83
Keisuke Tanatsugu and Setsuo Arikawa

Vol. 6, No. 2 **June 1977**

Statistical Inference in Mathematical and Computational Linguistics 95
H. P. Edmundson

A General Packing Algorithm for Multidimensional Resource Requirements 131
K. Maruyama, S. K. Chang, and D. T. Tang

A Prefix Operator for a Switching Algebra 151
J. C. Muzio

Field Analysis: A Mathematical Method of Analysis for Information Handling Processes 165
Samy Iscovici

Vol. 6, No. 3 **September 1977**

A Note on Answer Extraction in Resolution-Based Systems 179
Jack Minker and Gerald A. Wilson
Information System Design for Real-Time Multiprocessing Systems 193
Harvey S. Koch
Compacting Homogeneous Text for Minimizing Storage Space 211
T. C. Ting
Determination of the Number of Unambiguous Bit Matrices 223
Sergei Aalto and Ernst Schuegraf
Computer Diagnosis of Goiters. V. The Input 237
A. Bouckaert

Vol. 6, No. 4 **December 1977**

Execution Traces and Programming-Language Semantics 263
R. G. Hamlet
Predicting the Availability of Contiguous Memory 279
Arne Thesen and Tad Pinkerton
An Application of Formal Linguistics to Scene Recognition 289
Flavio Roberto Dias Velasco and Celso de Renna e Souza
FEAST: Feature Evaluation and Selection Technique for Deployment in Unsupervised Nonparametric Environments 307
Belur V. Dasarathy
G/M/1 Queue Study of Buffer Behavior in the Decoding System of Computer Communication 317
H. M. Srivastava, H. B. Kekre, and Y. N. Bapat
Simple-English for Data Base Communication 327
J. A. Moyne
